SSI6 WOMEN'S COLLECTION

Be it in day-to-night heels, featured flats or statement metallic finishes, this season the Clarks woman is invited to dress well, and dress once. Her hunt is rewarded with a collection of must-have fashion companions that prove style is no longer a point of departure for comfort. Her days of compromise are over.

Clarks®

NARRATIVE

The designer's art executed with an elegant twist. Carefully curated into a collection of considered pieces, from statement style to timeless simplicity.

TECHNOLOGIES

WAVEWALK

The Wave Walk sole is curved and uses the body's natural momentum and walking motion to gently propel the wearer through each step.

To make unstructured styles unbelievably light, the mid-soles are made from a featherweight EVA rubber compound and the leather linings are perforated for improved breathability.

Working with a leader in biomechanics we've studied how the foot needs supporting to maximize the comfort experience. A targeted dual density cushioning system helps the foot's natural pivot action into propulsion, and reduces strain on the ball of the foot for greater comfort.

TRIGENIC

Flex3 outsole follows the natural volume curve and movement of the foot with a deconstructed design to keep the foot unrestricted.

Developed by our technical experts, Clarks Active Air Vent combines a pump hidden in the heel with state-of-the-art materials and specialist construction. The result not only cushions feet, it also ventilates them by silently drawing fresh air in from outside.

Different densities of foam deliver comfort, all day, everyday with softness you can feel from your first step. Long lasting comfort and fit with minimal compression. Optimal breathability via open-cell technology.

Triple-density Ortholite® footbed delivers targeted cushioning where you need it most. Specialized cushioning solutions for different pressure points and balanced cushioning stabilizes the foot allowing you to walk with ease. Long lasting impact absorption with every step.

Visibly soft outside and brilliantly soft inside with heel-to-toe midsole cushioning that delivers maximum underfoot comfort with each and every step.
